## **Vanguard in Providing Modern Industrial Consultation Nationwide**

### **Introduction:**

*Saman Industrial Group* has entered the arena of industry while targeting at the ideal goals and moral commitments. This company consists of hardworking and devoted artisans. After conducting various researches, applying appropriate technology, and passing scientific and management courses, it has embarked on forming institutions plus different expert and consultant departments in the realm of industries. This company, relaying on the domestic capital and know-how in the industry sector, is determined to achieve the highest summit in industrial consultation. *Saman Industrial Consultation Group*, enjoying efficient and precise engineering know-how and technical support, has been able to fulfill a great deal of domestic needs in executing projects and in line with respecting to the goals of national investors and artisans, offer invaluable services.

**Our honors:**

*Saman Industrial Group* prides itself for attainment of the following honors and commendation through hardworking and perseverance in this tough way:

1. Commendation letter from Iranian Society of Experts
2. Receiving commendation letter from 15<sup>th</sup> International Exhibition on Textile Machinery (2009)
3. Receiving commendation letter from Jerun Company in China for extensive activities and active attendance in the international exhibitions.
4. Receiving commendation letter for taking part in international exhibitions of Shanghai in China in 2009
5. Membership to Banking Investment & Consultant Center
6. Attainment of technical and engineering permit from Mines and Industries of Qum Province.
7. Commendation letter from Iranian Society of Experts as the most active company in executing the stipulations of the Principle 44 of the Islamic Republic's Constitution.
8. Achieving the honorary rank in "the 4<sup>th</sup> National Congress for Elites" by the  
Manager of Saman Sanat Mobtaker.

*Saman Sanat Mobtaker*, primarily, started its activity with the help of the Board Members led by engineers and university professors and a number of elites and university graduates related to the Iranian Society of Experts and provided background and framework for consultation activities. These frameworks provided preliminaries for the attainment of permits and licenses.

Head Office address: Unit 5, 1<sup>st</sup> floor, Day Bldg., No.:45, Ammar\_yaser St., Qum. Tel.: (0251) 2900983 Fax: (0251) 2900984 postal code:3719147838 Website: <http://www.ebp.ir> Email: [info@ebp.ir](mailto:info@ebp.ir)

## **Vanguard in Providing Modern Industrial Consultation Nationwide**

---

Some of these frameworks include:

- Gathering and analyzing technical and statistical data on industries, which are within the scope of the specialists' activities of the company. These industries are:
  - a) Manufacturing artificial Polyester fibers from new and recycled materials.
  - b) Recycling worn-out tires and producing rubber powder.
  - c) Building products related to Expanded Polystyrene (EPS) such as ceiling blocks and polystyrene walls ,sandwich panel , 3D panel, ICF- based construction systems, big construction projects using Geo-Foam.
  - d) Recycling of Pet Plastics and producing standard recycled flakes.
  - e) Manufacturing plant Bioplastic decomposable and producing their products.
  - f) Producing postal bubbled bags and pockets.
  - g) Recycling Pet bottles.
  - h) Producing plastic-wood or woodplast from wood and plastic disposals.

It should be mentioned that these industries examined by the Board Members and through guidelines of the university professors as well as the professionals and experts while considering the activities of the Board Members before the establishment of *Saman Sanat Mobtaker* company were selected.

- Operating the information management system based on knowledge inside the company (M.I.S.)
- Operating a specifically-designed website for the company to exchange global and national information
- Operating a Customer Relation Management System (CRM)
- Agency granted by Jerun Company in China for artificial fibers machinery, pet bottles and fiber recycling.

## **Vanguard in Providing Modern Industrial Consultation Nationwide**

- Creating a specific website for the Jerun Agency in Iran [www.Jerun.ir](http://www.Jerun.ir)
- Completion of the correspondence made with domestic resources such as private corporations and institutions and universities and scientific centers.
- Completion of correspondence made with foreign resources including firms and foreign universities.
- *Saman sanat Industrial Group*, successfully passed these stages to obtain "Technical and Engineering Permit" in the field of industrial consultation.

*Saman Sanat Mobtaker*, obtained "technical and engineering permit" in the specific field of engineering services (designing and consultation) with ISIC code 74211111 from Mines and Industries Organization of Qum Province on 13/03/2008.

After the attainment of the above mentioned permit, the Company started its activity in the head office located in Holy City of Qum in the following address: Unit 5, 1<sup>st</sup> floor, Day Bldg., Ammar\_yasser Ave., Qum., Iran ..... on Feb.2008.

In continuation, a detailed report of the projects underway and completed projects of this Company are presented:

**The Projects by Saman Sanat Mobtaker Company****Supplier of Industrial Machinery**

No.	Client	Title	Beginning	Condition
1	Armaghan Marand Fiber Company, Mr. Ebrahim Ghanbari	Polyester fibers from pet flake , capacity: 4800 t. per year	09/06/2008	Underway
2	Parsan Aliaf Mehr, Mr. Azizi	Polyester fibers from pet flakes , capacity: 4500 t. per year	31/10/2008	Waiting to be financed by other party
3	Mr. Nazari from Hamedan	Rubber powder from worn-out tires , capacity: 500 per hour	07/11/2008	Waiting to be financed by other party
4	Fajr Lamard Fars Cooperative, Mr. kazem Zadeh	Hollow and Solid Polyester Fibers from pet flakes and new materials, Capacity: 6000 t.	30/12/2008	Waiting for L/C from Central Bank
5	Mr. Samer Haghighi	Replacement of machinery for industrial paints producing with polyester fibers , capacity: 7500 t.	03/02/2009	Under technical study for replacement of production line
6	Soren Polymer Khazar, Mr. Erfani	Hollow and solid polyester from pet flakes and new materials, Capacity: 12000 t. per year	19/02/2009	Waiting for L/C by Central Bank
7	Mr. Raafat from Tehran	Rubber powder from worn-out tires, Capacity: 1000 kg. per hour	04/04/2008	Selecting appropriate technology based on existing tires
8	Tondgouyan leef company, Mr. Ghasem Lou	Recycling of Pet bottles and producing polyester fibers , capacity: 6000 t. per year in two stages	10/05/2009	Machinery are ready to be shipped in Shanghai
9	Pars Investment Group, Mr. Panjeh Shahi	Pars investment group management plans for producing polyester fibers	21/04/2009	Ready to prepare the land and submit machinery Performa
10	Ilam Pet Recycling, Mr. Nazeri	Pet Recycle Plan	31/01/2009	Machinery installed and put into operation
11	Ayegh Delijan Company, Mr. Najafi	Plan for production of polyester fibers , capacity: 9000 t.	30/04/2009	The land purchased, contract signed with Jerun Co. for machinery
12	Mosavi,	full automatic pet flakes		Negotiations concerning

	Qum Province	Production plan	01/05/2008	machinery completed and contract about to be signed
13				
14	Mr. Taghva Manesh from Tabriz	Polyester production plan , Capacity: 3000 t. per year	21/01/2009	Land prepared and construction is underway
15	Mr Maravandi from Isfahan	Polyester production plan in Isfahan	09/04/2009	L/C granted and machinery under production
16	Mr. Amini Nasab	Producing different post bags and bubbled bags in Qum province	06/12/2009	Contract with foreign manufacturer about to be signed for machinery
17	Pars Havaye Falagh, Mr. Kermani	Production of Argon, Nitrogen, and Liquid Oxygen from air	02/10/2009	Selection of technology and final feasibility and selecting specifications of machinery based on the geographical conditions of the location (site)
18	Mr. Ramezani	Production of span band fabrics	15/01/2010	Feasibility underway and selecting machinery suppliers
19	Air Toya Company, Mr. Rostami	Production of Rubber powder , capacity: 5000 t. per year	05/12/2009	Selecting supplier considering that the produced mesh shall be over 200

**Orientation and Feasibility Plan**

No.	Client	Title	Beginning	Condition
1	Noavaran Eskan Qum Engineering Company	Preliminary plan for sand and pebble granulation in Qum Province	22/04/2008	Finished
2	Aliaf Armaghan Marand Company Mr. Ebrahim Ghanbari	Orientation and feasibility plan for production of polyester fibers , capacity: 4800 t.	30/06/2008	Finished
3	Mr. Aboulghasem Hosseini	Feasibility of production plan for polyester fibers in Mashahd	31/07/2008	Finished
4	Parsan Aliaf Mehr, Mr. Azizi	feasibility of production plan of polyester fibers in Kashan	17/10/2008	Finished
5	Mr Nazari from Hamedan	Orientation paln for produciong rubber powder from worn-out tires , capacity 500 kg. per hour	27/10/2008	Finished
6	Moheb Industrial Group, Mr. Haj	Preliminary plan for producing GPPS in Qum Province	04/11/2009	Finished

	Hosseini			
7	Mr. Khadem from Qum	Preliminary plan for producing rubber powder	18/11/2009	Finished
8	Fajr Lamard Fars Cooperative, Mr. Kazem Zadeh	Orientation and feasibility plan for production of polyester fibers, capacity: 6000 t.	12/12/2008	Finished
9	Mr. Samer Haghghi	Feasibility of the production plan for polyester fibers from recycled pet flakes	28/01/2009	Finished
10	Mr. Shahidi	Orientation plan for the recycle complex and related industries in Isfahan Province	11/04/2008	Finished
11	Ms Lotfi	Orientation and feasibility plan for production of rubber powder with a capacity of 500 kg. per hour	17/04/2009	Negotiating
12	Mr. Ghasem Lou	Orientation plan regarding establishment of a plant for pet flakes recycling and production of polyester fibers in Qum Province	16/08/2009	Done
13	Mr. Erfani	Orientation plan regarding establishment of a plant for pet recycling and production of polyester fibers in Qum province with a capacity of 12000 t. in Golestan Province	04/07/2009	Done
14	Mr Mahmoudian	Full-automatic cake and cookies production with a capacity of 750 t. per year	11/08/2009	Completed
15	Mr Mazloumi	Production of prefabricated concrete blocks In Ardabil province	16/08/2009	Completed
16	Mr Sadeghi	Manufacturing wood-plastic profiles in Ardabil province with a capacity of 1500 t. per year	07/08/2009	Completed
17	Pars Havaye Falagh, Mr. Kermani	Argon , Nitrogen and liquid oxygen from air production plan	02/10/2009	About to be completed
18	Parsian Leef Delijan, Mr. Jalali	Two element fiber production for the first time in Iran	18/01/2010	About to be completed
19	Mr Mahmoudian	Production of Turkish delight and traditional gelatin	12/01/2010	Completed
20	Mr Alaei	Production of pectin from citrus disposals with a capacity of 100 t. per year	06/11/2009	Completed

**Industrial Studies and Research**

No.	Client	Title	Beginning	Condition
1	Ms. Firouzeh Dashti	Studying supply and demand in the domestic market for masterbatch on PVC basis	22/11/2009	Finished
2	Mr. Jaberian	Studies on CNC machinery	23/12/2008	Finished
3	Poushesh Sazan Jam	Studies on ceiling concrete block producing machinery and sandwich Panel.	09/11/2009	Underway

--	--	--	--	--

**Research Activities:**

*Saman Sanat Company*, with regard to the role and importance of precise and accurate information as a guarantee for success in every manufacturing and commercial activity, has conducted various researches in the field of industries.

The following is an outline of the research plans conducted by *Saman Sanat Company* in order to reach its goals in 2008-2009:

No.	Title of the project	Description	beginning	Condition
1	Identification of modern technologies for tire recycling	In order to examine the possibility of using them across the country for the first time	Sep.2008	Completed
2	B2B Informatics Systems	Studying business based management and marketing systems	November 2008	75% of the project completed and the rest is underway
3	Research on export markets for polyester fibers	In order to export products in domestic markets	January 2009	Done
4	Research on export markets of powder and rubber granules	In order to export products in domestic markets	January 2009	Done
5	Studies on artificial fiber industry in Iran	Presented to the Iranian Society of Experts	Feb. 2009	Done
6	Preparing detailed plan for production of kinds of artificial fibers and the status of polyester industry in Iran	Presented to the Bank of Industry and Mines	July 2009	Done
7	Preparing marketing studies concerning polyester fibers industry in Iran and worldwide	Presented to the textile experts of ministry of industries and mines	Aug. 2009	Done
8	Detailed studies on rubber recycling industry in Iran	Presented to the members of the industry and mine committee to the Iranian Society of Experts	July 2009	Done
9	Detailed Studies on plastic-wood production industry and other artificial wood products in Iran	Presented to engineer Masoudi, deputy for legal affairs of Consultative Assembly and secretary to the fraction of experts in 8 <sup>th</sup> Majlis	03/08/2008	Done
10	Preparing Detailed plan for the destroyable plastic industry	Presented to Dr. Khosro Nasiri Zadeh, secretary general to the Iranian Society of Experts	11/12/2008	Done

**Vanguard in Providing Modern Industrial Consultation Nationwide**

11	Studies on polystyrene industries in Iran and Middle East	Presented to engineer Izadi secretary to the energy commission of the Expediency Council	04/11/2008	Done
12	Preparing plan for inflow of Geofoam industry and using it for foundations and highways	Presented to the Board Members of Taksan Company in Tehran for mutual cooperation	12/10/2008	Done
13	Feasibility of ICF industry inflow concerning polystyrene industries and using it in the complexes higher five stories	Presented to the research center of Ministry of Housing	20/07/2009	Done
14	feasibility of production of nano-fibers in Iran by domestic machinery and technology and employing Iranian experts	Presented to the Iranian Society of Experts	09/05/2009	Done
15	Visiting Shanghai textile exhibition in China	In order to visit and examine modern technology for production of several types of artificial fibers , textiles , lining, pad, wad, etc.	18-22 June, 2009	Done. Photos enclosed
16	Specialized visit of production line of the industrial machinery of Jerun company in China	In order to update the information relating to the research plans and R&D department of Jairan Company	23-25 June 2009	Done. Photos enclosed
17	Visiting Wales company in China	In order to update information concerning producing all kinds of packaging bags	17-21 sep. 2009	Done. Photos enclosed
18	Visiting Richa China Company , the biggest producer of Argon gas in China	In order to study technology regarding production of Argon and primary technical negotiations	13-15/10/2009	Done. Photos enclosed
19	Visiting Richa China Company , the biggest producer of Argon gas in China	In order to study technology regarding production of Argon and final technical negotiations	06-13/12/2009	Done. Photos enclosed.

**Exhibitions and Seminars:**

Domestic and international exhibitions, international seminars and conferences, are of the most important events where foreign and domestic achievements of experts in the field of science and technology can be presented. With regard to this fact, attendance and visiting related exhibitions and seminars and conferences are among priorities for *Saman Sanat Company*.

The following is an outline of conferences, seminars, domestic and international exhibitions visited and/or attended by *Saman Sanat Company*:

No.	Title of exhibition/seminar	Date	Location
1	Second International Exhibition of Iranian Machinery		Tabriz
2	8 <sup>th</sup> International Industrial Exhibition in Tehran		Techran
3	Specialized Exhibition of Machinery and Construction Materials, building lightening and strengthening		Isfahan
4	14 <sup>th</sup> International Exhibition of Textile Machinery		Tehran
5	6 <sup>th</sup> International Exhibition of Iran Plast		Tehran
6	3 <sup>rd</sup> International Industrial Exhibition (ISIEF 2008)		Isfahan
7	8 <sup>th</sup> International Exhibition, paint, resin and industrial covering		Tehran
8	Visiting Shanghai Textile Exhibition in China		Shanghai china
9	Attending and taking special stand in Shanghai Textile exhibition in China		Shanghai in China
10	Taking stand no.:15 in the International Textile Exhibition in Tehran		Tehran, Iran

**Cooperation with other companies and organizations:**

Today, one of the most important factors of advancement and development across the world is to cooperate with both domestic and international companies. *Saman Sanat Company* has a close communication with various companies over the world.

List of the domestic and international colleagues of *Saman Sanat Company* are as follows:

No.	Title of the Company	Subject of cooperation	Location of the company
1	Jerun Chemical Co.	Offering technical know how and polyester fibers machinery and pet recycling	Industrial area, Shanghai, China
2	Zongji Chemistry Co.	Cooperation for industries related to expanded Polystyrene machinery	Industrial area, Zongji, China
3	Yami Trading Co.	Cooperating for purchasing and international transportation of machinery	Shanghai China
4	Taksan Asia Company	Cooperation for supplying chemical materials	Tehran
5	Fajr Lamard Fars Company	Cooperation for exporting of products in future	Shiraz
6	Zist Fanavar Saze Kimia	Cooperation in executing and management recycling projects and designing systems of supplying materials for industries, object of activity of the company	Tehran
7	Parsoft Company	Implementing IT projects and designing knowledge management systems	Tehran
8	Soren Polymer Khazar Company	Production of polyester fibers with a capacity of 12000 t. per year	Kord Koy
9	Iranian Society of Experts	The most nongovernmental organization of Iran	Tehran
10	Wales Company in China	Engineering Company in producing machinery for all kinds of bags and bubbled films	Guanjoy, China
11	China Richa Company	The biggest Argon Gas Producer in China	Shanghai China

### Subsidiary Activities of Saman Sanat Company

*Saman Sanat Company* along with following main objectives in order to facilitate the long term goals of the company, depending on the requirements and research results, performs some subsidiary activities.

An outline of these activities have been presented as follows:

No.	Title of the activity	Remarks	Condition
1	Operating website <a href="http://www.Jerun.ir">www.Jerun.ir</a>	To guide investors in the artificial fiber industry inside the country	Completed
2	Performing essentials for industrial tour	To visit and tour Polyester fiber plants in China by domestic investors	Done
3	Prepared to attend Chinese exhibition	To attend Jairan stand in the 14 <sup>th</sup> international exhibition of textile machinery in Shanghai, China on 12-15 June, 2008.	Done
4	Operating the biggest B2B site in Iran		Underway
5	Operation of internet informatics system for various industries as databases	To do this , a specialized workgroup has been formed inside the company	Completed
6	Preparing collection of guidelines for artisans and investors	Detailed manuals on: <ul style="list-style-type: none"> <li>• Plant disposable utensils</li> <li>• Tire recycling and rubber powder</li> <li>• Plastofoam industry in Iran</li> <li>• Mineral water in Iran</li> <li>• Industrial bread in Iran</li> <li>• Chips production from potatoes and fruits</li> <li>• Production of polyester fibers from pet</li> <li>• PET and plastic Recycle</li> </ul>	These collections are enclosed.

		<ul style="list-style-type: none"><li>• MDF and Plastic-wood Industry in Iran</li></ul>	
7	Presentation of more than 350 minutes of industrial films in over 400 industries to the artisans , students and investors	To provide information on consumer products and capital	Completed

**Missions of *Saman Industrial Group*:**

1. Development of organizational, managerial and executive capabilities and potentials in the respect of various projects.
2. increasing the possibility of competition in the investment sector through reducing the cost , improvement of productivity and quality and creating capabilities and potentials appropriate for industrial sectors.
3. establishment and development of project designing knowledge, economic engineering and implimentation of technology in different parts of investment and transfer of technical; knowledge of the world to the country.
4. investment attraction and supplying financial funding of the projects in the sectors required.
5. establishment and development of support services for investors and artisans nationwide.
6. promotion of domestic contractors ability and potentiality in executing projects in various sections and applying national potential facilities to flourish and promote executive technology for investors.

### **Moral Charter of Saman Industrial Group**

- honesty and loyalty to obligations and commitments
- serious attempt and perseverance to fulfill the requirements for personal as well as organizational perfection
- customer-oriented
- creativity and innovation
- devoted to safety and environment preservation

"Big jobs are assigned to those who have demonstrated their ability in doing small jobs."

**Conclusion:**

*Saman Sanat Company* targeting at contribution and supplying underlying

bed for establishing industries useful for sustainability of the country and implementing the stipulations of the principle 44 of the Islamic Republic's Principle hopes to serve in line with the goals of 1404 Perspective Plan to the artisans of this land.

Seyed Mohsen Hosseini

Managing Director to Saman Sanat Company

Vice-president to Iranian Society of Experts
